

Brivo Offline Lock Integration with Schlage®

Enhance your door security and manageability

Schlage® offline wireless locks combined with Brivo are a cost-effective way to secure doors and manage access permissions without paying expensive wiring and network costs

SCHLAGE® OFFLINE WIRELESS LOCKS + BRIVO BENEFITS

- Offers a simple, scalable lock solution that doesn't require additional components and eliminates the need to manage physical keys
- Saves time managing and configuring access permissions by easily setting lock parameters within the Brivo Access platform
- Provides greater convenience for residents with secure access to perimeter and unit doors via a single mobile credential
