

Brivo Smart Home Skill for Amazon Alexa

Add Alexa voice control to your Brivo Smart Home connected devices

Brivo Smart Home Skill for Amazon Alexa

allows you to control smart home devices that are connected to a Brivo Gateway

BENEFITS

- Control Brivo Smart Home devices from any Alexa Skill enabled device
- Compatible with Amazon or third-party Alexa-enabled devices
- Lock doors, operate lights, and control thermostats using Alexa
- Bring your Brivo Smart Home Devices into your existing Alexa environment

The Brivo Smart Home Alexa Skill allows users the flexibility to enable devices with voice activation to control Brivo Smart Home devices:

- Easy to set up from mobile phone, computer/laptop or Alexa Skill enabled device
- Hands-free Brivo Smart Home device control
- Leverage Alexa Scenes to control all of your Brivo Smart Home devices with a single command
- Compatible with Amazon or third-party Alexa-enabled devices
- Requires Brivo Gateway

HOW IT WORKS

Once set up and enabled, users will be able to fully control their smart apartment from their Amazon Alexa devices in addition to their Brivo Smart Home mobile app.
