

SMART APARTMENT PORTAL

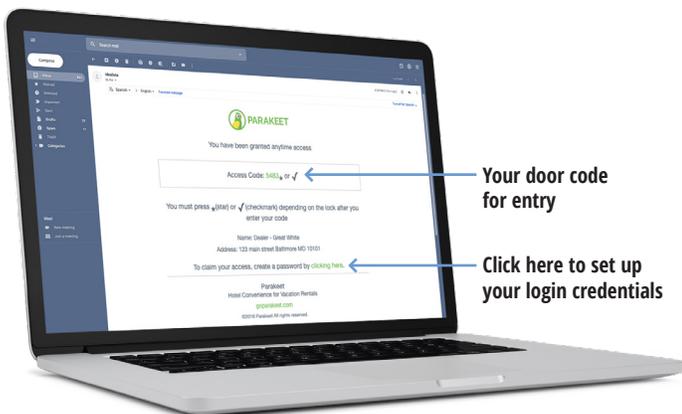

QUICK START GUIDE

Welcome to your new Brivo Smart Apartment. To get started using your new Smart Apartment devices, follow the steps below.

1) Claim Your Account

Your property manager will send an email notification to your designated email address. This email will have a link to set-up and claim your account as well as your door code to access your front door.

Your door code for entry

Click here to set up your login credentials

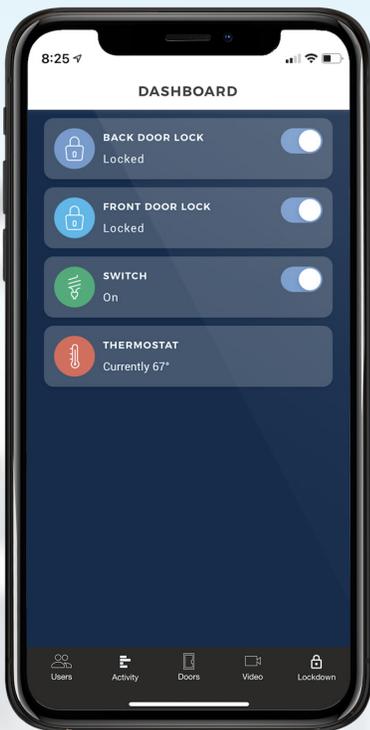

2) Download the Resident App

The Brivo Smart Home Resident App is available for iOS and Android users. Search for Brivo Smart Home and use the credentials you set up to log into your account on the mobile App.

3) Key Features of the Mobile App

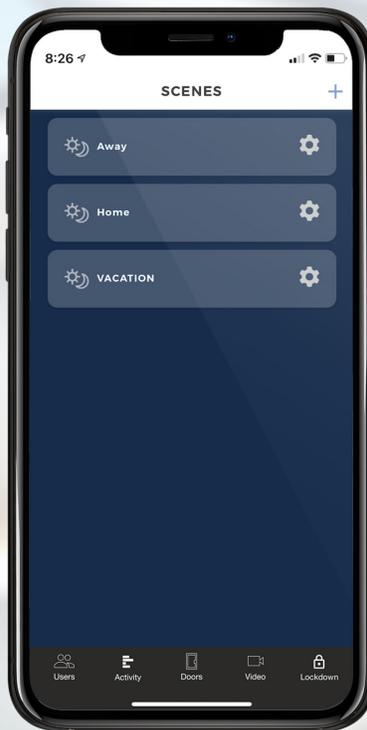

The iOS and Android versions of the App are slightly different, however, the key features are very similar.

Devices

On the landing page of the App, all of your devices will be listed.

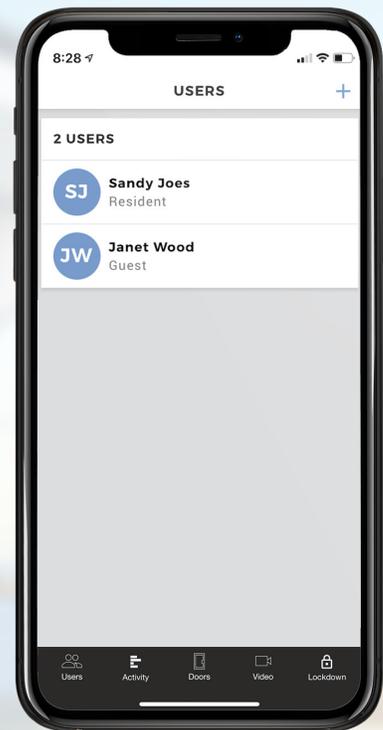

Simply click on the device or use the slider if it is available.

Scenes

Creating a scene will allow you to control multiple devices at the same time.

Press the '+' button and add the devices that you want to include in the bulk command.

Users

Give permanent or temporary guests access to your home.

Manage your guest access.
