

PLAINSCAPITAL BANK TRANSFERS ITS MULTI-SITE SECURITY TO THE CLOUD

while reducing costs and keeping
operations running smoothly

THE CHALLENGE

PlainsCapital Bank needed a unified, secure physical security platform and one, consistent user credential to meet their expansion needs.

THE CHOICE

“The platform had to focus on data integrity, disaster recovery and system resiliency. It also needed to be scalable and light on IT resources without impacting other bank operations.”

-Bill Lines, Chief Information Security Officer at PlainsCapital Bank

WHY BRIVO

- Use cyber-hardened technology and proven secure cloud-based access control services
- Manage, monitor and report event activity from all locations in a single platform
- Integrate with enterprise systems to share data and reduce re-work
- Quickly deploy access control to any facility

THE CHANGE

PlainsCapital Bank has a physical security platform that supports its multi-site business by enabling its workforce, providing better protection for assets and information and reducing the time to complete audits and inspections.

Using Brivo Onair with HID iCLASS SE Readers and mobile credentials creates a seamless user experience. The bank improved operations by using a credential that can be easily updated, revoked and tracked with its Brivo security platform.

“By implementing mobile-enabled readers from HID and conducting a rollout of HID mobile credentials, we were able to improve the security experience while reducing costs.”

-Bill Lines

The Brivo Onair cloud-based, subscription model makes it easier for security staff to remotely manage each location while having a financially responsible way to scale the security platform.

A CYBER SECURE SOLUTION

By relying on Brivo experts to handle the back-end infrastructure, PlainsCapital Bank continuously improves its security program and focuses on the business of running the bank. Automatic software and firmware updates and cybersecurity patches from Brivo help keep the bank secure.

“We wanted to focus on security services and not system functionality. Not having to worry about software, hardware or client configuration was important to our security program as we scaled locally and beyond.”

-Bill Lines

ABOUT PLAINSCAPITAL BANK

Dallas-based PlainsCapital Bank, the sixth-largest Texas-headquartered bank by deposit market share, operates more than 60 Texas branches and has more than 1,100 employees providing highly personalized relationship banking through a single point of contact. Offering commercial lending, treasury management, small business banking, private banking, and trust and wealth management services, PlainsCapital Bank empowers responsive, local decision making in each of its major markets. PlainsCapital Bank is a wholly owned subsidiary of Hilltop Holdings (NYSE:HTH).

ABOUT BRIVO

Brivo is the global leader in cloud-based security and property management solutions for commercial and multifamily properties that simplify security interactions for property managers, tenants, employees, and visitors. With over 20 million users and 1,000 authorized dealers, our SaaS platform has been unifying the security experience across access control, mobile credentials, video surveillance, identity federation, visitor management, intercoms, and elevator control since 2002.

Hundreds of software partners and end users use our APIs and SDKs to extend our solutions to unique vertical market offerings. More than ten years of SOC audits underscore our commitment to protecting customer privacy and data security.

ABOUT HID GLOBAL

HID Global is a worldwide leader in trusted identity solutions that power people, places and things. HID solutions give people secure and convenient access to physical and digital places and connect things that can be accurately identified, verified and tracked digitally. Millions around the world use HID products and services to navigate their everyday lives, and over 2 billion things are connected through HID technology. Headquartered in Austin, Texas, HID has over 3,000 employees with offices supporting more than 100 countries. HID Global® is an ASSA ABLOY Group brand.
