Brivo & Carson simplifying property management

Improve Resident and Staff Experiences From a Single Platform

BENEFITS:

- Offers secure smartphone access for residents, visitors, staff, and vendors

- Uses one platform to control access, manage property, and receive instant notifications of visitors

- Streamlines deliveries and vendor access

- Provides App based rent payment for tenants

- Receive intercom calls and remote doorman service directly on the app

- Share important tenant documents through an online library

Improve Property Management and Access Control to provide a smoother resident, visitor, and staff experience

Experience the freedom to manage your building from anywhere with the cloud-based Brivo and Carson integration

Brivo Access and **Carson** integration enhances security as well as the **tenant**, **staff**, and **visitor experience**

Instant residential communication for resident and staff messaging or more simply placing maintenance requests

Convenient visitor access with the ability to send electronic keys to guests to manage door entry

Centralized management of access control and monitoring of events on property

Increased Visibility and Control with live monitoring of cameras, recording visits in entry logs, and receiving video intercom calls

Improve real estate promotion efforts through self-guided tours and property information
