

Brivo & Nexodus Simplified & Streamlined customer journey

BENEFITS

- Manage access control privileges from your Nexodus dashboard
- Allow customers to quickly book a meeting room and then easily open doors using the Brivo Mobile Pass credential.
- Create and assign Brivo Mobile Pass credentials from your Nexodus portal
- Review access control reports to know exactly who is coming and going and when.

HOW IT WORKS

Without having to use a separate physical security tool. As updates are made to customer bookings, Brivo ensures your customers have the access they need to open the right doors

Customers can open doors via their smartphone. The mobile credentials are only active during contract start and end dates to keep your facility secure
