

The Brivo and Parkable Integration

Access Control and Security Management in One Platform

Simplifying and Securing the Parking Experience

while maximizing
the occupancy of your
parking structure

BENEFITS

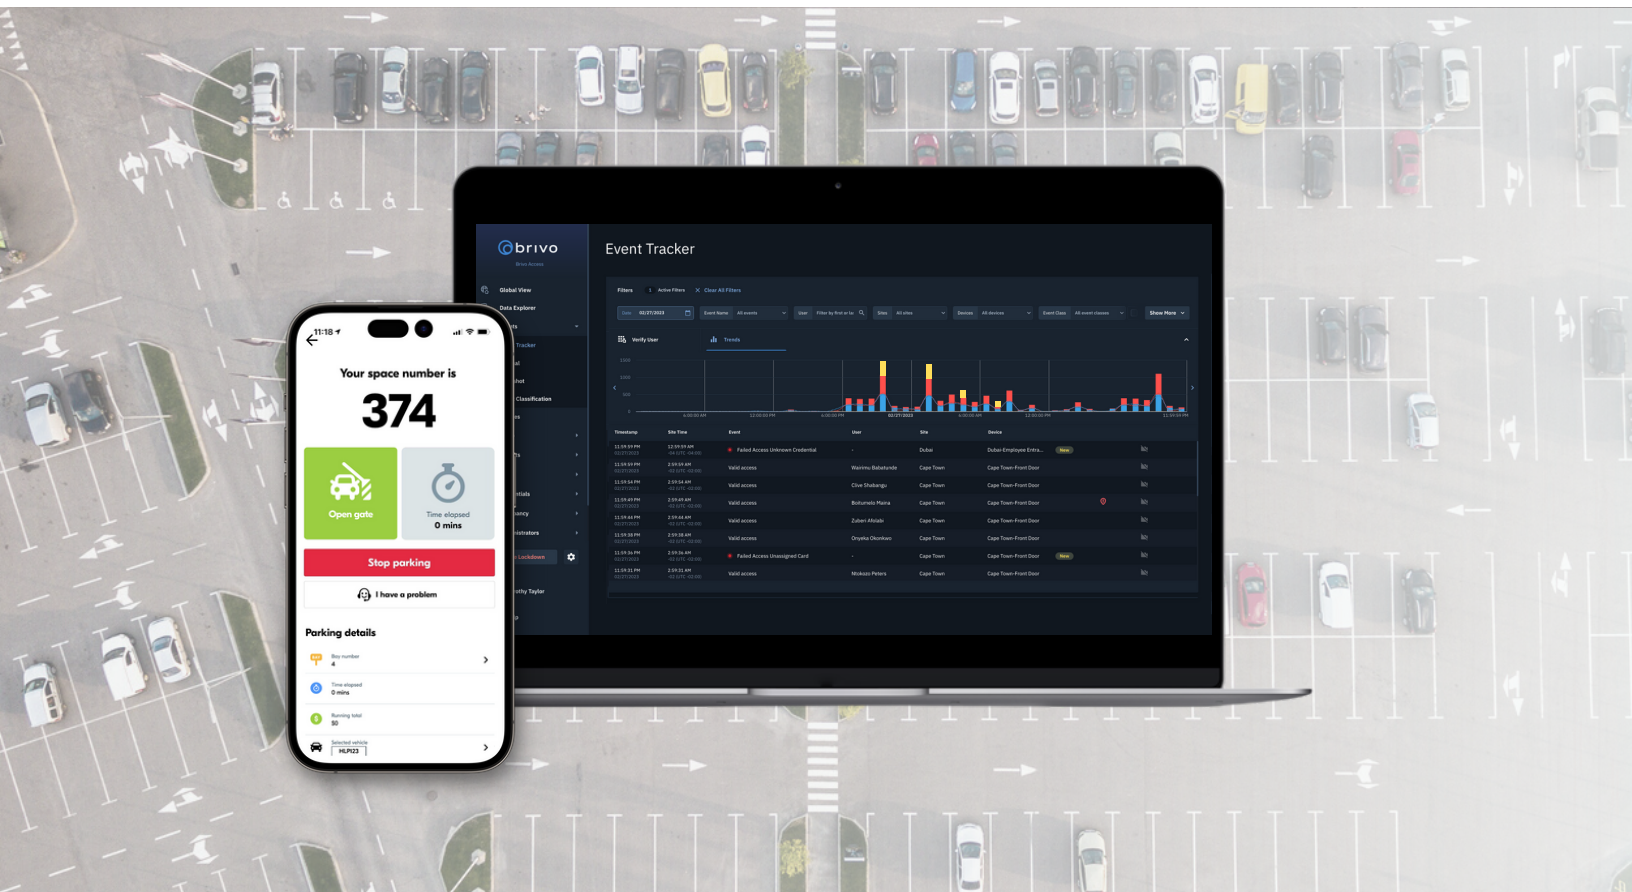

The Brivo Access and Parkable integration lets you seamlessly manage parking.

- **Facilitate secure and easy access**, reservations, and sharing for your tenants
- **Generate additional revenue** through visitor parking and EV charger management
- **Reduce the administrative load** of parking management
- **Assign access privileges** according to day, time or type of user
- **Analyze data insights** and optimize your resources for improved decision-making

Combining **Parkable** and **Brivo's** Cloud Access solves credential management and parking space challenges for guests, employees, tenants and landlords alike.

HOW IT WORKS

- Offers secure smartphone access for tenants, employees and visitors
- Improves utilization with space sharing feature
- Organizes parking spaces according to defined groups
- Manages space availability for charging electric vehicles
