Brivo Intercom

Powered by Swiftlane

The Experience Residents Expect. The Visibility Your Team Needs. **All in One Place.**

Brivo Intercom combines Swiftlane's award-winning video intercom hardware with the Brivo Security Suite platform. Visitors never slip through undetected.

FEATURES

- Visitors at secondary doors can call without an app by scanning a QR Placard. No download required.
- Video calls go to Brivo Mobile Pass. Residents answer visitor calls in the app they use for every door on the property.
- IK10 vandal rated. IP65 weather rated. Built for the outdoors and the unexpected.

Swiftvision | Swiftvision Pro | Swiftreader X | Swiftvision Max

Four Models to Choose From

Swiftvision — 5" Display Compact footprint, ideal for smaller buildings, interior doors, and lower-cost deployments.

Swiftvision Pro — 7" Display Mid-sized form factor with the full Swiftlane feature set. Purpose-built for most multifamily entrances.

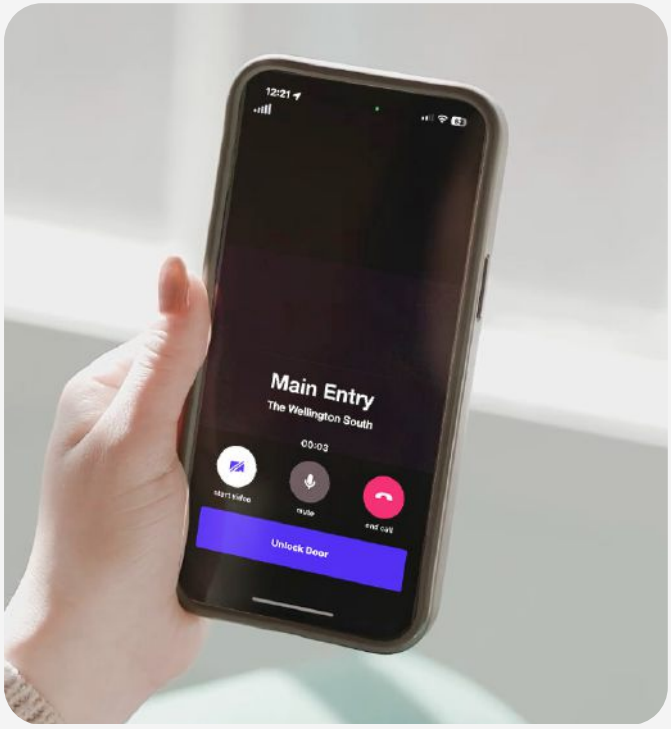

Swiftreader X — 8" Display Flagship model. Largest camera array, highest vandal protection rating, ideal for high-traffic and urban deployments.

Swiftvision Max — 10" Display Large-format touchscreen for buildings where visibility and presence matter most.

Your property runs on Brivo. Now your front door does too — powered by Swiftlane, the most advanced video intercom hardware available.

One Platform. Full Visibility.

Legacy Intercom	Brivo Intercom
Separate app for residents	Video calls in Brivo Mobile Pass
Dedicated landline required	No landline required
No visitor log or audit trail	Every entry logged with photo and timestamp
Manual move-in and move-out	Automated credential activation and deactivation
No visibility across portfolio	One dashboard for every property and every entrance
Wired hardware, on-prem server	Cloud-managed, OTA updates every two weeks

What This Means for Your Bottom Line

- **Stop managing access. Start managing the property.** Remote credential management means no locksmith calls, no on-site visits to issue a contractor pass, and no manual rekeying at move-out. Your team handles every access event from the Brivo dashboard, freeing up time for higher-value work across the portfolio.
- **Eliminate the landline cost.** For an operator managing ten properties, eliminating a landline is a measurable operating cost reduction with no tradeoff in capability.
- **Reduce insurance exposure.** Properties with monitored entrances, verified entry logs, and full video audit trails are positioned to negotiate lower insurance premiums.
- **Compete on amenity quality.** Keyless, mobile-first entry is now a competitive differentiator in lease-up and renewal conversations. Residents choosing between communities notice the difference. A modern front door is no longer a nice-to-have, it is expected.
