

Integrated Workspace
Management and
Access Control

Access Control

Integrated with
Employee, Visitor
and Workspace
Management

BENEFITS

- Improve the employee experience with smart phone access to your offices
- Use one platform for desk booking, conference room management and on-site check ins
- Reduce burden and increase efficiency for workspace managers
- Efficiently manage workplace deliveries across the globe

With **Envoy** and **Brivo**, you can solve for workspace flexibility, safety, and visitor management.

The Brivo Access and
Envoy integration lets you:

Secure access to buildings

while also providing customized user permissions for visitors and employees

Streamline

both your credential management and your work space occupancy management

Gather data insights

from the integrated system to provide space utilization reporting for better security, even as offices become more hybrid

Automatically

end digital key access when a membership or reservation expires

**Increase flexibility and
improve access
security** in the workspace
management
