

Integrated Workspace
Management and
Access Control

Brivo & Proximity workspace flexibility

Improve onsite experiences at workplaces, coworking spaces and flex offices while securing door access.

BENEFITS

- Improve the employee experience with digital key smart phone access to your offices
- One platform for desk booking, meeting room management, wifi, and on-site check-ins
- Increase efficiency for workspace managers to focus on other business challenges
- Understand how your workspace is being utilized with visual floor plans and robust reporting
- Enable hoteling and flexible booking for desks and meeting rooms

THE BRIVO ACCESS AND PROXIMITY INTEGRATION LETS YOU

- Streamline both your credential management and your workspace management
- Secure access to buildings while also providing customized user permissions at the individual or group level
- Gather data insights from the integrated system to provide space utilization reporting for better security, safety and understanding of asset usage
- Maximize your operations for increased efficiency and reduced cost

Brivo Access integrated with the **Proximity** platform provides **access security** and a **comprehensive solution** for optimizing your **workspace**
