BENEFITS OF INTEGRATING BRIVO ACCESS AND 2N IP VERSO

Brivo provides the missing link between your multi-tenant building visitor entry system and physical security platform.
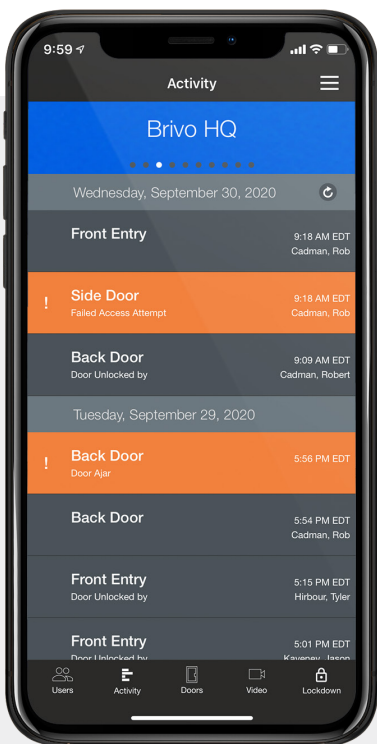

**BENEFITS**

Improve efficiency and directory accuracy

Seamlessly configure the 2N IP Verso device from Brivo Access and set-up automatic downloads so your tenant directory is always up to date.

Offer a convenient and safe way to open doors for visitors

Enable tenants and attendants to grant access to visitors from their phone.

Brivo Access is your platform for seamlessly configuring and managing your 2N IP Verso tenant directory.

Updates are sent to the 2N directory at specified intervals

Tenant records are created in Brivo Access and added to the designated intercom group

2N IP Verso Intercom
