

Brivo Wireless Locks

Cut the cord and move to wireless locks with Brivo Access

Brivo
brings your
wireless locks
to the cloud

BENEFITS

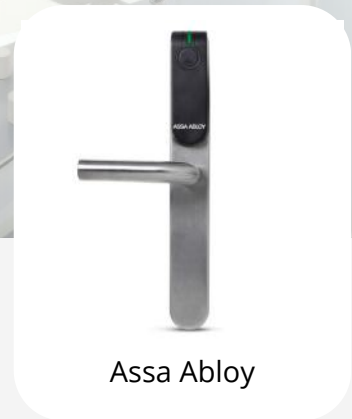

- **Choose the wireless lock that best meets your door type** including exterior, interior, gate, store-front, glass doors, cabinets, lockers and server racks
- **Seamlessly integrate wireless locks into your Brivo Access platform** with easy installation, software compatibility and reduced wiring and labor expenses
- **Provide greater security than mechanical locks** with real-time door status monitoring and access control via Brivo Access

Use wireless locks from the top industry brands with your Brivo platform to achieve real-time monitoring, added control and lower installation costs.

Unlock the power of choice with a wider range of wireless locks, tailored to fit your unique door opening and physical security needs
