# Welcome to the Future of Security Design

Every detail matters, from the grandest designs to the minutest finishes, each element contributes to the creation of spaces that inspire, protect, and endure.

At Brivo, we understand the importance of seamlessly integrating security solutions into architectural visions.

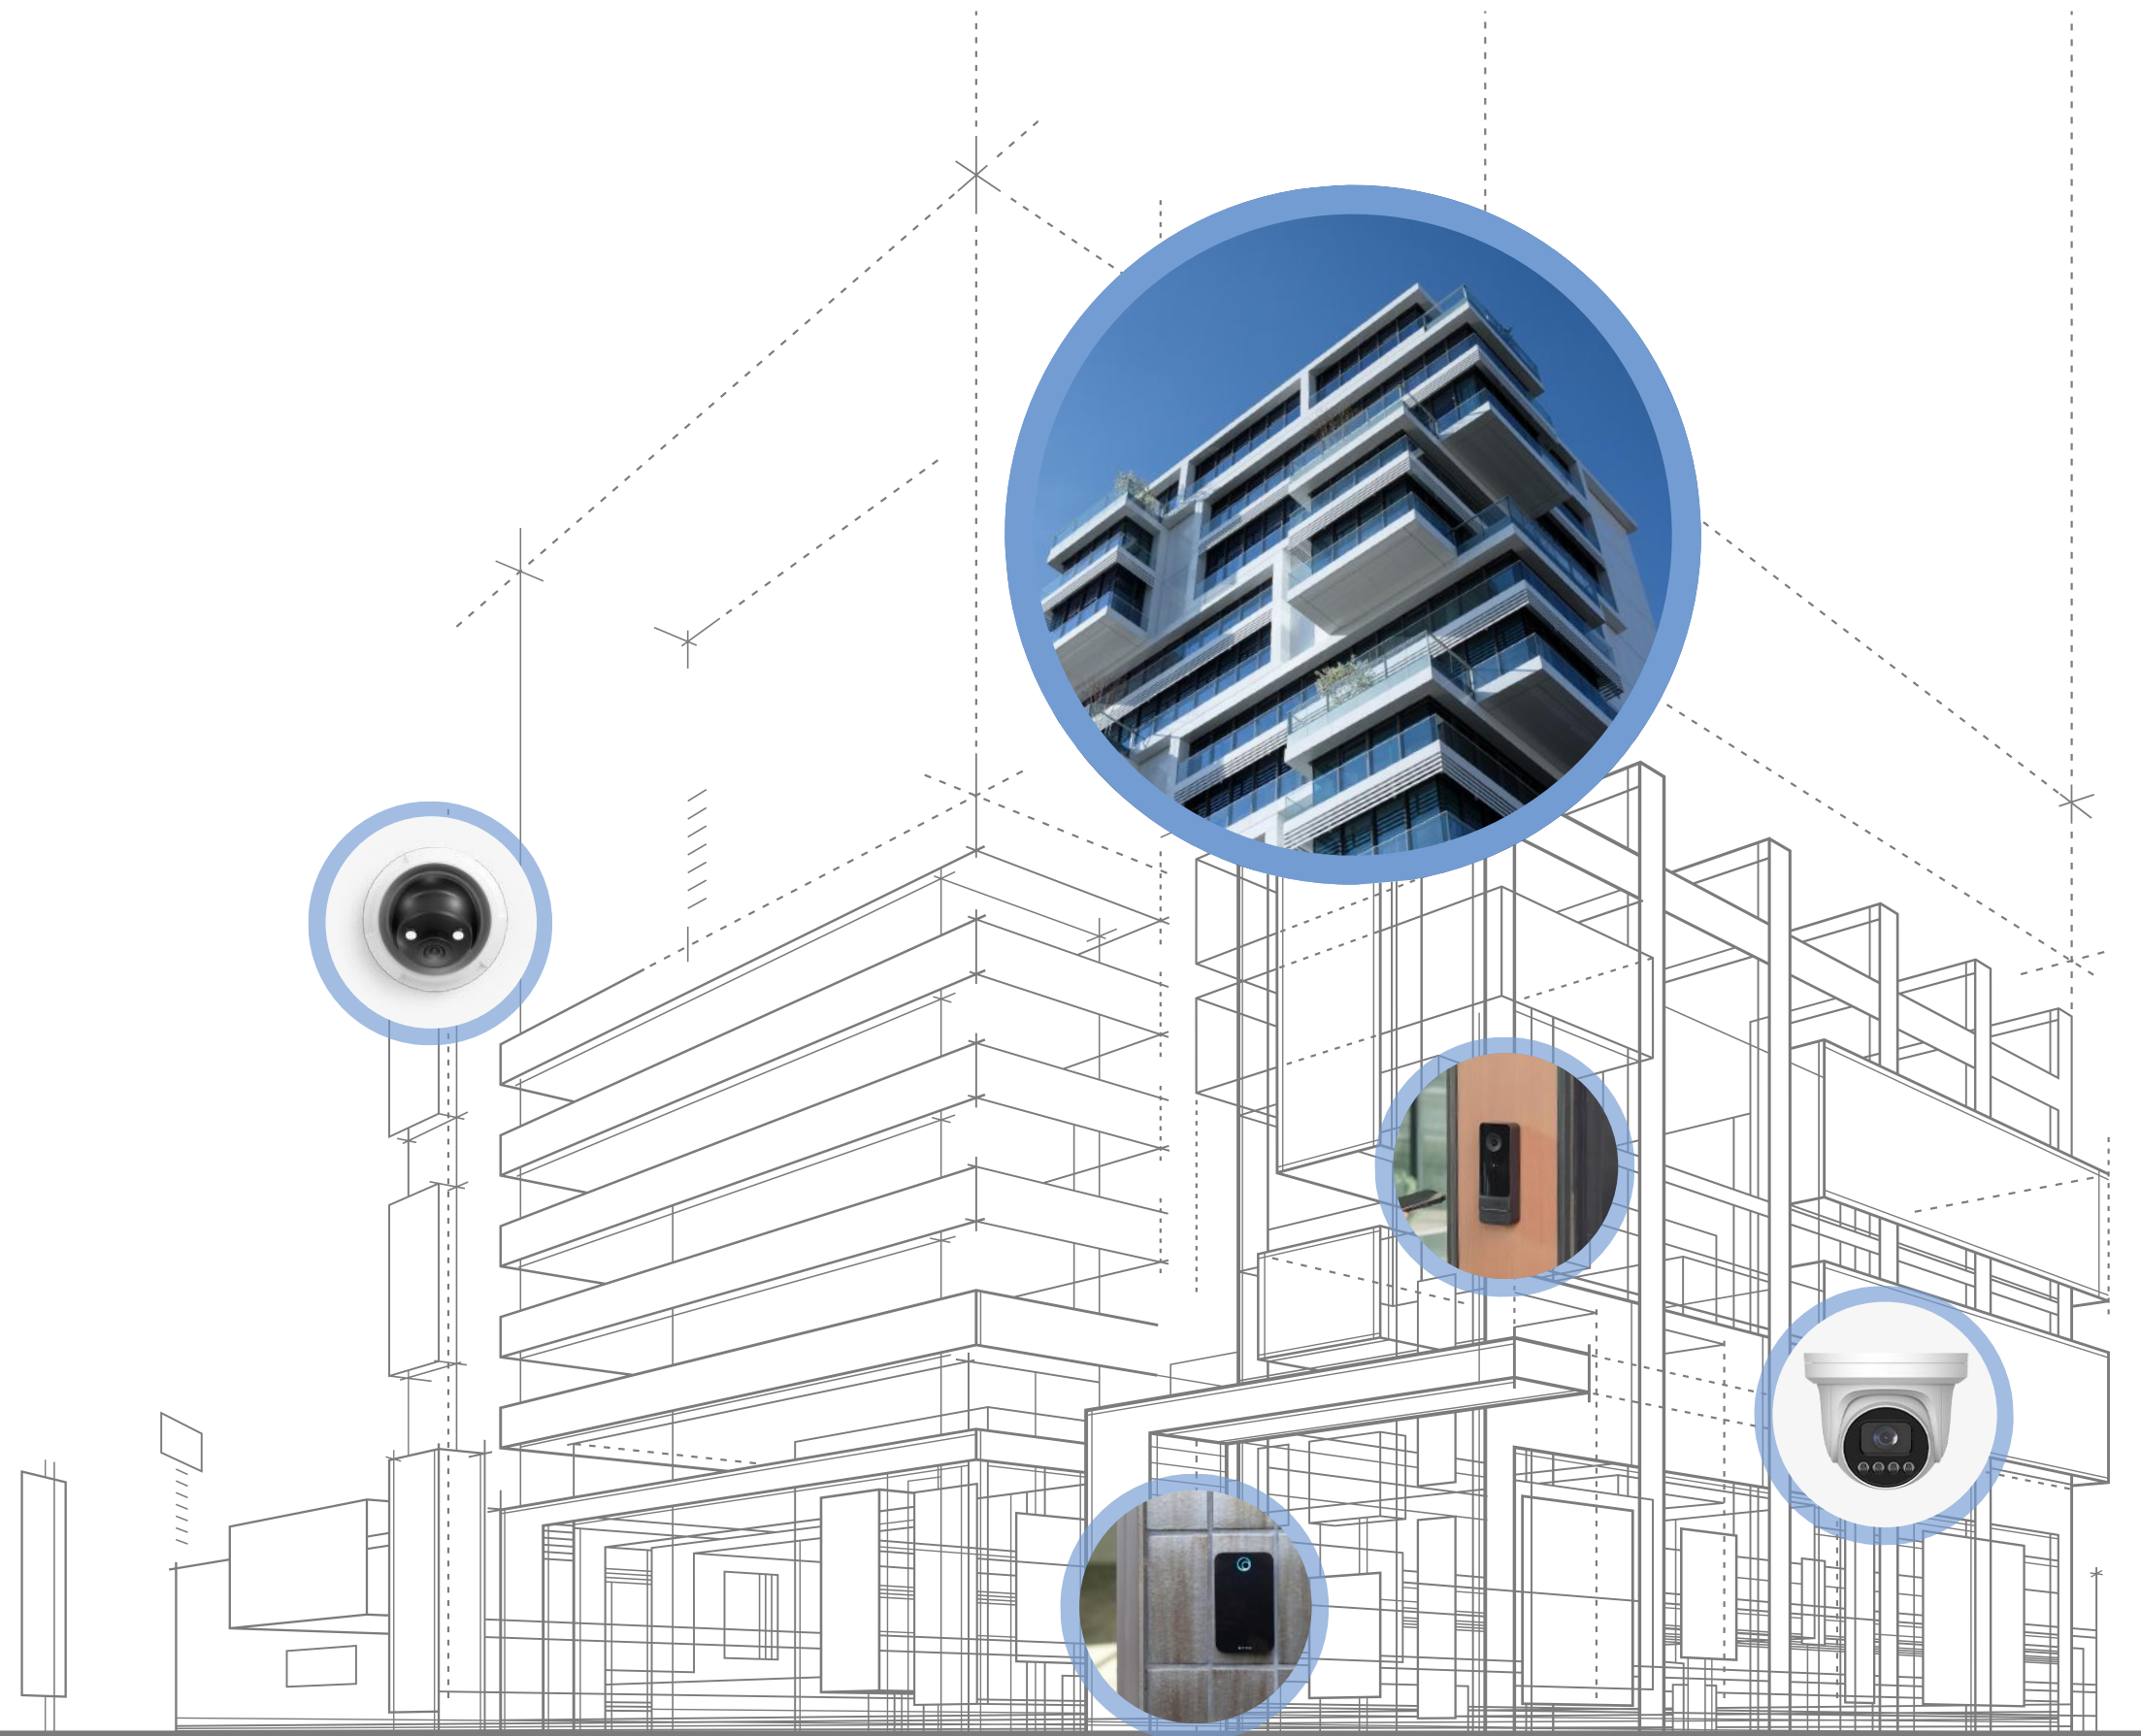

Discover how our innovative products, can elevate your designs to new heights.

# Unlocking Design Excellence

The design vision is complex. It's the intersection of creativity, functionality, feasibility, and now, more than ever, security. From the first blueprint, AEC professionals are on a journey to coordinate multiple building elements while driving innovation inspiration and a pleasing aesthetic for the human experience.

Brivo shares a commitment to innovation. Brivo AEC professionals come from the building design industry. Sharing your creative vision is our strength and with the support of our product offerings, we can help bring your design to market while enhancing security.

# Enhance Your Architectural Vision with Brivo Products

Brivo offers a versatile range of security hardware products that complement the diverse design palettes of AEC professionals. Our sleek designs are suitable for any architect's vision, with clean lines, and modern finishes that preserve your aesthetic. Whether keyless or touchpad, Brivo products allow the Architect, Engineer, or Construction professional to remain committed to the creative vision.

Brivo products harmonize effortlessly with diverse architectural elements. Whether you are designing a contemporary glass and metal structure, an entrance or room rich in wooden tones, or even concrete surfaces, Brivo products will visually blend across your building materials while providing reliable security.

# The Solution

Discover our products, featuring sleek designs that allow you to maintain your aesthetic preferences effortlessly.

## + Modern Design

Embrace the future with our sleek and contemporary design, incorporating clean lines and minimalist elements that seamlessly blend into any architectural setting.

## + Pure Geometry

Discover the beauty of simplicity with our geometrically inspired design, where every angle and curve is carefully crafted to evoke a sense of elegance and sophistication.

## + Robust Appeal

Built to withstand the rigors of daily use, Brivo products combine strength and durability while maintaining a stylish appearance, ensuring both form and function in equal measure.

## + Versatile Aesthetic

From sleek urban environments to traditional settings, Brivo products offer versatile aesthetics that complement a wide range of architectural styles, providing the perfect finishing touch to any entrance.

# Tech Approach

Where sleek design meets cutting-edge technology. With its pure geometry and meticulously crafted design treatment, the Brivo Door Station embodies the epitome of modern sophistication.

Each line and curve is a testament to the smart technology operating within. Striking a harmonious balance between robust construction and technical innovation, this device redefines what it means to secure your space with style and efficiency. Welcome to the future of access control, where elegance and intelligence converge.

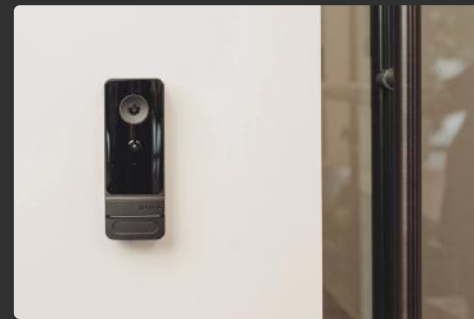

# Brivo Door Station

Brivo Door Station—a testament to sleek architectural design seamlessly integrated with cutting-edge security technology.

Crafted with meticulous attention to detail, this sophisticated device embodies elegance and functionality, elevating the aesthetic appeal of any building entrance.

Its sleek lines and modern finishes effortlessly complement contemporary architectural styles, while its advanced features ensure unparalleled security and access control. Embrace innovation and sophistication with the Brivo Door Station.

## Dimensions

Unit: 7.1 x 2.6 x 1.6 in | 179 x 66 x 39 mm  
Unit w/Shield: 7.4 x 3.0 x 2.3 in | 188 x 75 x 54 mm

# Versatile Aesthetic

Brivo Readers represents an aesthetic shift in access control systems, offering architects unparalleled flexibility in design implementation. Their ability to seamlessly integrate with various surfaces, including wood, brick, and cement, gives architects newfound freedom to incorporate security measures without sacrificing aesthetic appeal. Whether affixed against the natural grains of wooden doors, integrated into the texture of brick walls, or discreetly mounted onto concrete structures, Brivo Readers provide a balance between function and design.

- +LED Light Feedback
- +Credential Scanning Function
- +Cohesive Design Language

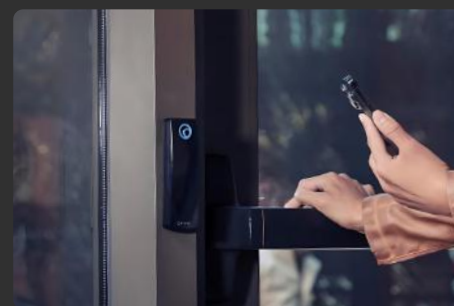

# Brivo Smart Readers

Enhance the aesthetic appeal and security of any space.

Brivo Smart Readers effortlessly integrate into any architectural aesthetic, enhancing the visual appeal of your space while providing unparalleled access control.

Elevate your architectural vision with Brivo Smart Readers, where design meets security in perfect harmony.
