

## Brivo Wireless Locks

Elevate your wireless locks with Brivo  
Cloud-based Secure Access

Brivo  
brings your  
wireless locks  
to the cloud

### BENEFITS

- Manage buildings from any connected device
- Protect your property and people with real-time video
- Support your tenants with a mobile-based platform
- Create a one-app experience for mobile device users.
- Achieve peace of mind with smart locks and improved common area access control

Enhance your overall security platform by combining your preferred wireless locks with Brivo Access to:

- ⊕ Achieve real-time monitoring
- ⊕ Access data for decision-making and planning
- ⊕ Lower Installation costs
- ⊕ Future proof your investment

Unlock the power of choice with a wider range of wireless locks, tailored to fit your unique door opening and physical security needs
