

# BENEFITS OF INTEGRATING BRIVO ACCESS AND STRATIS

Give your residents a modern physical security experience where one app takes them from 'gate to unit.'

### Control access to doors from one system

Manage access to units, common areas, vehicle entry and parcel storage from one system instead of coordinating between disparate systems.

### Take your credentials mobile

Use secure mobile or physical credentials to control who enters exterior doors.

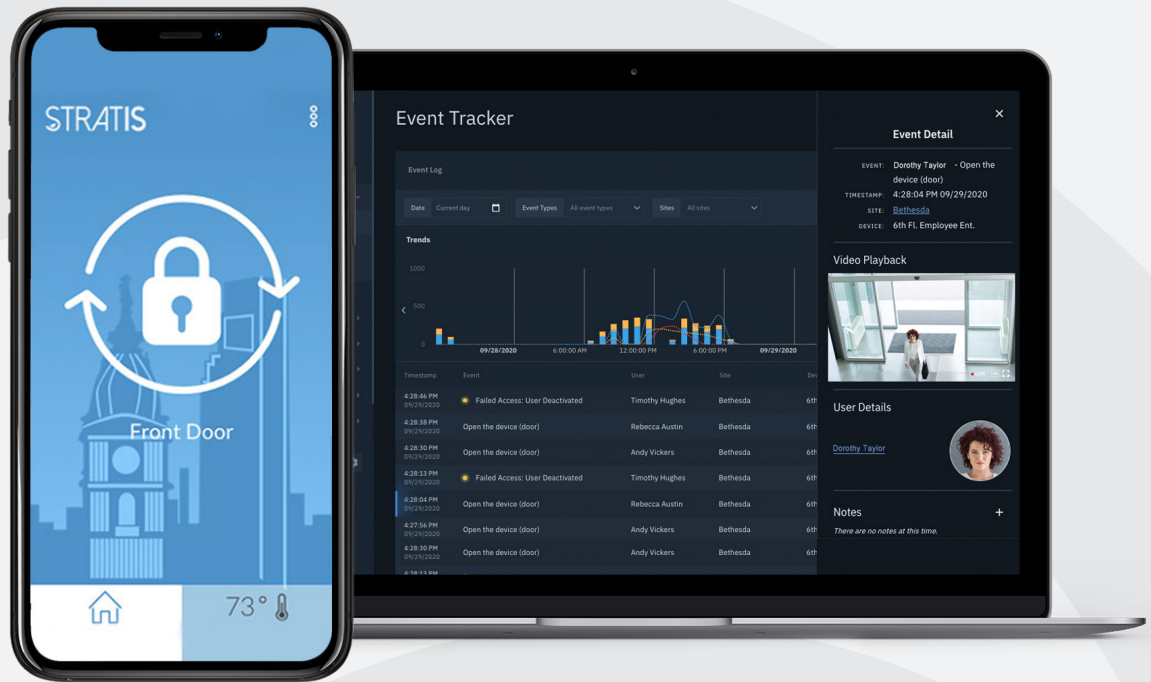

### Deliver more value with modern security

Attract residents who appreciate current technology like mobile credentials and the peace of mind of electronic security.

## MANAGE BUILDING ENTRY POINTS AND DELIVER BETTER PHYSICAL SECURITY

- **Ensure residents** have appropriate common area door access with automatic user updates sent from STRATIS to Brivo Access
- **View video** of common area door events in Brivo Access
- **Allow residents** to access all doors with one mobile app on their smartphone and enjoy full smart-home automation inside their apartment with the STRATIS app
